

Template

Bleed

Background graphics/colors must go all the way to the edge, i.e. 1 mm beyond the final edge.

Final edge

Final format after cut.

Safety zone

Text and images are placed in the safety zone 2 mm from the final edge.

NOTE

Graphics, images and text are placed in the PRINT layer.

The punch shape is defined with a red spot color in the PUNCH layer. The spot color must not be used for anything else.

Print file is exported with PUNCH.
